Senior Engineering Lead with 10+ years of experience in designing and building scalable frontend applications using Angular (v16+), TypeScript, and modern web technologies. Expert in architecting component-based UI systems, optimizing application performance, and delivering enterprise-grade solutions. Proven experience in leading frontend teams, mentoring developers, and driving technical decisions.

Experienced in React-based development for banking domain projects, with working knowledge of Node.js, Express.js, and MongoDB. Passionate about building high-performance, accessible, and maintainable user interfaces that align with business goals.

CORE COMPETENCIES

- Component Architecture
- Frontend Architecture
- Performance Optimization
- Team Leadership
- Agile & Scrum Framework
- State Management
- Cross-Functional Alignment
- Code Review & Governance

TECHNICAL SKILLS

FRONTEND (PRIMARY)

Angular (v16+), TypeScript, JavaScript

FRONTEND (SECONDARY)

React

STATE MANAGEMENT

NgRx, Redux

TESTING

Jest, Cypress

BACKEND & APIS

Node.js, Express.js, RESTful APIs

DATABASE

MongoDB

UI & STYLING

HTML5, CSS3, Bootstrap 3/4/5, Responsive Design

AI TOOLS

SASVA, GitHub Copilot, ChatGPT

TOOLS & TECH

Git, JIRA, Postman, VS Code

EDUCATION

MCA | 2012

Shri Shankaracharya Group of Institutions, Bhilai

BCA | 2009

Makhanlal Chaturvedi University, Bhopal

KEY ACHIEVEMENTS

- Improved application performance by ~30% by optimizing change detection and implementing lazy loading.
- Designed reusable UI component architecture used across multiple modules.
- Led frontend team of 5+ developers, improving delivery timelines and code quality.
- Reduced page load time significantly by optimizing bundle size, API calls, and rendering strategies.
- Contributed to React-based UI development for banking application modules.

WORK HISTORY

PERSISTENT SYSTEMS, BENGALURU

Senior Engineering Lead

FEB 2019 – PRESENT

- Led frontend development for enterprise-grade applications using Angular (v16+), TypeScript, and modern UI frameworks.
- Designed and implemented scalable component-based architecture, improving code reusability and maintainability across multiple modules.
- Optimized application performance by implementing lazy loading, efficient change detection, and bundle optimization.
- Improved UI performance and reduced load time for large-scale modules used by enterprise clients.
- Delivered scalable UI solutions for complex enterprise workflows in the banking domain, contributing to React-based UI development for banking modules.
- Built responsive, cross-browser-compatible user interfaces, ensuring a seamless user experience across devices.
- Collaborated with cross-functional teams (product, backend, QA) to deliver high-quality features within timelines.
- Led a team of 5+ frontend developers, conducted code reviews, and mentored junior engineers to improve code quality, productivity, and enforce coding standards.
- Identified and resolved complex UI issues, improving application stability and performance.
- Followed Agile methodology and actively participated in architecture discussions, sprint planning, estimation, design solutions, and delivery.
- Leveraged AI-assisted tools such as SASVA, GitHub Copilot, and ChatGPT to improve development productivity and code quality.

CENTURYLINK INDIA PVT LTD, BENGALURU

Senior Software Engineer

JUL 2017 – OCT 2018

- Developed user-facing features using Angular, JavaScript, HTML5, and CSS3 following core modern standards.
- Designed responsive UI components and ensured cross-browser compatibility across multiple browsers.
- Collaborated with stakeholders and backend teams to deliver production-ready features within strict timelines.
- Acted as a single point of contact (SPOC) for UI deliverables and technical project alignment.
- Ensured SEO best practices and application performance standards across the digital ecosystem.

LENDINGKART PVT LTD, BENGALURU

UI Engineer

AUG 2016 – MAY 2017

- Developed and optimized UI for loan dashboard application using Angular and Bootstrap frameworks.
- Ensured responsiveness, scalability, and performance of web applications across multiple platforms.
- Validated user inputs securely and integrated UI with modern backend APIs.

QUESSCORP LTD, BENGALURU

Web Designer & Developer

JUL 2015 – AUG 2016

- Designed and developed responsive UI layouts using HTML5, CSS3, and Bootstrap.
- Built reusable UI components and collaborated with stakeholders for key feature enhancements.

CERTIFICATION & LEARNING

- Hands-on experience with React, Node.js, Express.js, and MongoDB through proof-of-concepts (POCs) and enterprise project modules.
- Continuous learning in frontend performance engineering, optimization patterns, and modern web development practices.
